Subject: Hwy 100 and County Rd. 33

Heriberto;
 Corrections:

1. In the opening line you have the word "in" written twice:

Announcements and Key Topics

The Highway 100 and County Road 3 Groundwater Plume in in St. Louis Park and Edina, Minnesota is being proposed for the Superfund National Priorities List (NPL) which lists sites where releases of contamination pose human health and environmental risks.

2. For site location you have Hwy 7 and Wooddale. Yet the site is being listed as Hwy 100 County Rd 3. This might be confusing. Suggest listing the location to be same as site name.

Site Location

Street Address:

Near intersection of Highway 7 and
 Wooddale Ave.
 ST. LOUIS PARK, MN 55426

3. The Link to MPCA Hwy 100 County Road 3 page is not working.
4. First paragraph in Background says "A source for the plume has not been identified. VOC contamination was found in municipal wells in Edina and St Louis Park, but all drinking water is treated before distribution." Revise to say "A source for the plume has not been identified. VOC contamination was found in municipal wells in Edina and St Louis Park, but all drinking water is treated to remove VOCs before distribution.
5. I am good with having my name and contact information included on the website, see contact information in block below.
